ECG Workshops

Medix College

The objective of the Electrocardiogram (ECG) Seminar is to understand the technical components of Electrocardiography, the roles and responsibilities of the technician and how it relates to patient care.

<http://www.medixcollege.ca/Certificates/Electrocardiogram>

The Michener Institute of Education at UHN

Enhance your ECG skills with this hybrid course. Through a combination of online learning and practical hands-on experience, you will develop the know-how to produce high quality ECG tracings and to troubleshoot problems. The practical session will provide you with the opportunity to practice the collection of valid and accurate ECG tracing.

Combined Courses

Centennial College

ECG, Phlebotomy, & Specimen Management

This fully-online, self-paced course will allow you to understand the subject matter at your own pace to ultimately gain a solid understanding of the content. Each lecture is comprised of several narrated content sections, and each section is followed by a short summary and quiz to assess what you have learned. Each lecture concludes with a final quiz as a cumulative review.
