A Message in Honour of Medical Laboratory Week 2026

As we celebrate Medical Laboratory Week from April 12–18, 2026, I want to extend my deepest gratitude to the dedicated professionals who serve the residents of Oakville and all of Ontario.

It is often said that 'a day without lab professionals is a day without answers.' In Oakville, we recognize that the work performed behind the scenes at Oakville Trafalgar Memorial Hospital and in labs across the province is the very foundation of modern medicine. From diagnosing illness to monitoring chronic conditions and supporting emergency care, your expertise provides the certainty our doctors and patients rely on.

Despite the challenges of staffing shortages and the high-pressure nature of your field, you continue to deliver accuracy and excellence with unwavering commitment. Your contributions are vital, your dedication is seen, and your hard work is deeply valued by our community.

On behalf of the Town of Oakville and Town Council, thank you for your essential service. Happy Medical Laboratory Week 2026

Mayor Rob Burton
