

Courses in Phlebotomy and ECG are offered at several schools/programs.  
Please contact the schools directly to determine which course will meet your needs.

## **Phlebotomy Workshops**

### Centennial College

[Phlebotomy Workshop MLAB-201](#) - This workshop combines Phlebotomy theory and practical hands-on training.

### CIMT College

[Phlebotomy Workshop](#) - This hands-on workshop refreshes the phlebotomy practices to be followed. This workshop is not intended to prepare students for employment as MLA/T.

### Medix College

[Phlebotomy](#) - The objective of the Phlebotomy course is to learn the basics of phlebotomy and venipuncture as it relates to patient care.

### Michener Institute of Education at UHN

[Venipuncture Techniques](#) – This hybrid course includes an online theory portion and a practical in-class workshop.

## **ECG Workshops**

### Centennial College

[ECG Workshop MLAB-301](#) - The introductory level Electrocardiogram (ECG) course provides an opportunity to learn a systematic approach to ECG interpretation for adult healthcare providers in conjunction with practical “hands-on” session.

### CIMT College

[Electrocardiography Workshop](#) - This workshop is to understand the technical components of Electrocardiography, the roles and responsibilities of the technician and how it relates to patient care.

### CJ Healthcare College

[Electrocardiogram Workshop](#) - The course is presented in a workshop format. Participants will learn step-by-step procedures to perform a 12-lead ECG. The principles and techniques of Holter monitoring will be covered in a hand-on laboratory session.

Medix College

[Electrocardiogram \(ECG/EKG\)](#) - The objective of the Electrocardiogram (ECG) Seminar is to understand the technical components of Electrocardiography, the roles and responsibilities of the technician and how it relates to patient care.

Michener Institute of Education at UHN

[12-Lead ECG Interpretation](#) – Learn to interpret 12-lead ECGs online at your own pace. Review anatomy, arrhythmias, and conduction blocks with expert guidance.

### **Combined (Phlebotomy & ECG) Courses**

Centennial College

[ECG, Phlebotomy, & Specimen Management MLPA 130](#) - This fully online, self-paced course will allow you to understand the subject matter at your own pace to ultimately gain a solid understanding of the content. Each lecture is comprised of several narrated content sections, and each section is followed by a short summary and quiz to assess what you have learned. Each lecture concludes with a final quiz as a cumulative review.
