Summary of Duties:

The Medical laboratory Assistant in Molecular Diagnostics provides support services to ensure quality patient care. This includes: answering phone calls; specimen handling (receiving, sorting); routine technical procedures; SunQuest/CoPath computer data entry; filing and retrieving records; equipment maintenance; front-line customer service; may include rotation into Anatomic Pathology; and other duties as required. The Medical Laboratory Assistant plays an integral role in the department through team collaboration with peers, MLTs, Pathologists and management, supporting and assisting activities to enhance best practices for quality services and providing a safe working environment for all.

Qualifications/Skills:

- MLA certification with MLPAO or equivalent - required
- Prior molecular experience – preferred
- Prior experience handling all specimen types demonstrating good laboratory practice - required
- TDG certification - preferred
- Knowledge of privacy regulations related to confidential information – preferred
- Prior knowledge of Sunquest and CoPath lab systems - preferred
- Demonstrate exceptional attention to detail and accuracy
- Must be adaptable to a fast changing, highly technological environment
- Excellent communication, interpersonal and organizational skills
- Knowledge of specimen and diagnostic terminology with accurate spelling
- Fast, accurate keyboard data entry
- Work cooperatively in a team environment but also independently with limited supervision

If you are looking for an exciting opportunity and to build a career in an innovative and dynamic organization, submit your resume by clicking on Apply Now below.

- The location and/or details in the job posting may change depending on operational needs.
- Qualified Applicants must submit a Résumé with their application. Qualifications, skills and demonstrated satisfactory attendance and performance are considered as part of the selection process.
