

## **Future Laboratorians of Ontario (FLO) Ambassadors**

The MLPAO is excited to launch its FLO initiative designed to increase awareness and generate interest in Medical Laboratory Technology as a profession with high school students across Ontario.

The MLPAO is looking for members from across Ontario to become FLO ambassadors who will:

1. Deliver prepared presentations to high school students in their home district
2. Be a resource to guidance counsellors and students about the profession
3. Collaborate in the development of resources for high school students

We are seeking ambassadors from each of the MLPAO districts across Ontario. If you are unsure which district you belong to, check out your location on the [District Map](#).

This is a great opportunity for you to get involved and show your pride in the profession.

Requirements:

- Must be a current MLPAO MLT member
- Currently working as an MLT or have worked within the past 5 years

Time Commitment:

- Introductory meeting
- Review and preparation time for each presentation
- The ability to attend high school classes in person or by video conference depending on location of meeting and school protocols
- The number of presentations required will be dependent upon the size of the school board, their level of interest, and the number of ambassadors in each district

Take advantage of this opportunity to contribute to the medical laboratory profession and add to your professional portfolio! A certificate of participation that can be used towards continuing education requirements will be issued.

If interested, email a synopsis of your interest and your resume to [mlpao@mlpao.org](mailto:mlpao@mlpao.org). Please be sure to indicate which MLPAO district you live in.
